

Simple and Smart

Engineered for high performance efficiency and reliability, the CPK air compressor series can meet the compressed air demands of automotive repair industries, general maintenance and industry applications. Quiet by design, the CPK can be installed almost anywhere and close to your application, without disturbing your working environment.

The CPK simply smarter by design.

Technology	 Screw compressor
Use	 Continuous
Noise level	 Silent: 69-73 dB(A)
FAD	 513-3213 l/min
Power	 7,5-30 HP / 5,5-22 kW
Pressure	 8-13 bar
Weight	 225-400 kg
Dimensions (in mm)	 7,5-15 HP: 853 x 645 x 1070 20-30 HP: 1100 x 780 x 1170

CPK 7,5 – 30 HP
Compact Screw

CPA/CPB 7,5-40 HP
Industrial Screw

CPC/CPD 40-100 HP
Industrial Screw

CPE/CPF/CPG 125-480 HP
Direct Driven Screw

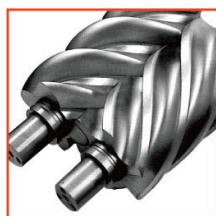

CPVR 20-100 HP
Inverter Driven Screw

CPVS 125-180 HP
Inverter Driven Screw

CPX 10 – 2500
Refrigerant Dryers

FILTER

User benefits

Built to last

Design for continuous and hard working conditions.

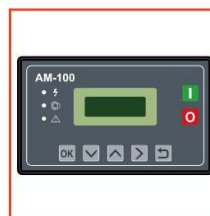

Two stage inlet filtration

To protect internal components.

Easy and fast maintenance

Practical design ensures easy access to belts, oil and filters.

User friendly controller

Simple and smart warning and maintenance message.

Small footprint

Compresses stores and processes air using less than 1m².

Innovative design concept

All our years of experience have gone into bring this new compact design concept to you.

- Smart in design.
- Smart in high tech assembling.
- Simple in operation.
- Fast and easy maintenance with simple lift canopy.

The new CPK Simply Smarter in design.

Features

Compact dimensions	Ideal for tyre shops, automotive workshops and general industry applications. The CPK offers small footprint of just 0,6m ² . This means it fits easily into your workspace even in the tightest applications.
User friendly controller	Electronic controller with easy and clear user interface. With easy to read operation status and automatic compressor control.
Encapsulated air filtration intake	Designed for your working environment to ensure the air intake is correctly filtered to protect your valued investment.
Optimized air-oil separator	Designed to provide an ultra-low residual oil content: only 3 ppm will enter your network. The oversized air-oil separator has a large surface area to separate the oil, which also results in low pressure drop and better energy efficiency.

Look for your quality assurance! Use Chicago Pneumatic Original Parts. Chicago Pneumatic is always at your service with comprehensive screw kits:

- Easy
- Guaranteed long lifetime
- Reliable operation
- All-in-one cost effectiveness
